

Firm Earns National Recognition for Growth

For the fourth time in five years, [SCJ Alliance](#) was named one of the fastest growing firms in the nation, earning a place on the *ZweigWhite Letter* Hot Firm List for 2014. SCJ was also on the list in 2010, 2011 and 2012. Winners will be celebrated at the Hot Firm & A/E Industry Awards Conference in September in Beverly Hills, CA.

SCJ is a consulting firm specializing in transportation planning and design, civil engineering, and land use/environmental planning. SCJ was 94th on the ZweigWhite list, which boasted an impressive median growth rate of 72 percent, up significantly from 44 percent in 2013. "Getting on The ZweigWhite Hot Firm list is very rewarding for us," shares SCJ President Perry Shea. "The goal post is getting higher all the time."

The Zweig list is an exclusive ranking of the fastest growing firms in the architectural, engineering, planning and environmental consulting industry. The rankings are based on the highest percentage revenue growth, and dollar revenue growth, over a three-year period compared to the other entrants from this dynamic industry comprised of over 100,000 firms.

"SCJ is always looking forward -- seeking new opportunities, new geographic markets and new technical disciplines to enhance client services," says Shea. SCJ's most recent acquisition was in June, site design and landscape architecture firm, which further expanded service offerings and added an office in Seattle.

SCJ also received the 2012 Spotlight on Business award from the Tacoma Pierce County Chamber, the 2009 Small Business of the Year award from the Thurston EDC, and 2009 and 2010 Best Firms to Work for award from *Civil Engineering News*.

Since its founding in 2006 as Shea Carr Jewell, SCJ has grown steadily from three employees in one location, to nearly 60 employees in six locations across three states – Lacey, Seattle, Vancouver and Wenatchee, WA; Boise, ID; and Westminster, CO.
