

**For Immediate Release**

## **Wenatchee Engineering Firm Welcomes Local Katie Covey**

WENATCHEE, Wash. July 6, 2016 – [SCJ Alliance](#) is pleased to announce the addition of Katie Covey to our Wenatchee office. Katie joins the team as a project coordinator for SCJ, a consulting firm specializing in civil engineering, transportation planning and design, environmental and urban planning, landscape architecture and design, and public outreach.

Katie is originally from Wenatchee and earned a bachelor’s degree in English with a business writing emphasis from Washington State University before returning to work for her hometown paper. Most recently at the Wenatchee World, she brings experience in website management, social networking and online marketing.

“Katie’s communication experience is a valuable complement to the engineers and landscape architects we have here in the Wenatchee office,” said SCJ Engineering Manager Dan Ireland.

SCJ Alliance is a nationally-recognized firm founded in 2006 and the recipient of two top places to work awards in the last 12 months. The firm has provided the expertise behind many endeavors in the Wenatchee region, including the recently constructed Downtown Wenatchee Revitalization Project and the Miller Street signal projects currently under construction.

Other current, high-visibility efforts include trail and roadway improvement projects in Winthrop, Twisp’s downtown revitalization, and community planning efforts in Entiat, Rock Island and Grand Coulee.

“SCJ has their hands on prominent projects around the country and local ones integral to the community I know and love,” Covey said. “I look forward to being a part of such an influential team.”

The firm is also providing engineering and planning services for Spanish Castle Resort in Douglas County and civil engineering for WinCo Foods stores across the U.S. and the High Roller in Las Vegas--the world’s largest observation wheel.

Celebrating a 10 year anniversary this year, SCJ has grown steadily from three employees in one location, to a dynamic team of nearly 70 employees in five locations: Seattle, Vancouver, Lacey, and Wenatchee, Washington and Denver Colorado.
