SCJ Alliance earns top engineering awards

by Mike Irwin | Nov. 4, 2017, 5:35 p.m.

Business

WENATCHEE — A civil engineering firm with a branch office in Wenatchee has been named as one of the best engineering-and-design companies in the U.S. and Canada.

SCJ Alliance, headquartered in Lacey with a local office at 25 N. Wenatchee Ave., was one of nine firms to receive the Zweig Group's top three awards — Best Firms to Work For, Hot Firms and Marketing Excellence — a “trifecta” that honors a firm's overall success, workplace practices, leadership and marketing.

The Hot Firms list recognizes the fastest-growing companies in the U.S. and Canada.

Founded in 2006, SCJ Alliance has grown from three employees at one location to more than 80 employees at five locations in the state. The company specializes in engineering, transportation planning and design, environmental and urban planning and architecture.

The Arkansas-based Zweig Group, an architecture and engineering consulting group, helps engineering firms expand, merge and refinance, along with other services. The company's annual award conference was held in September in Seattle.
