Design Engineer – Transportation

Gig Harbor, Wash.

Are you a design engineer who loves a challenge? Like the idea of working close to the Puget Sound metro area, but just minutes from breweries, beaches, and bike trails? SCJ has an exciting opportunity in our newly established Gig Harbor location that may be just right for you!

Who we are

With great projects and a fun-loving team, SCJ was named as both one of the nation's fastest growing and best places to work last year. We specialize in civil engineering, transportation planning & design, environmental & urban planning, landscape architecture & design, and public outreach. Our mantra "Anticipate. Envision. Create" captures our work environment and project approach.

What you'll be doing

- **Work that keeps our region moving.** Our transportation team specializes in corridor design, highway framework studies and IJRs, signalized and roundabout intersection design, downtown transportation revitalization projects, roadway/highway design, transit design, and stormwater design.
- **Managing drawings and providing calculations.** You'll prepare and revise drawings from rough sketches, mark-ups, or general engineering and design information and put the finishing touches on them with labelling, layering, and sheet layout.
- **Site visits and observations.** We want you to get out of the office on occasion and walk the sites you are designing. We also have construction management opportunities.
- **Learning from some of the best!** We're proud to have some of the top transportation professionals in the country right here at SCJ. From national program designers to statewide award winners to international roundabout experts, you'll learn from the best in the business.
