

Project Engineer I – Transportation

Gig Harbor, Washington

Are you a project engineer who loves a challenge? Like the idea of working close to the Puget Sound metro area, but just minutes from breweries, beaches, and bike trails? SCJ has an exciting opportunity in our newly established Gig Harbor location that may be just right for you!

Who we are

SCJ Alliance is a 100% employee-owned company with the mission to serve our clients, communities, and each other with creativity, knowledge, insight, and perspective. With great projects and a fun-loving team, our firm has been named as both one of the nation's fastest growing and best places to work in recent years. We specialize in civil engineering, transportation planning & design, environmental & urban planning, landscape architecture & design, and public outreach. Our mantra "Anticipate. Envision. Create" captures our work environment and project approach.

What you'll be doing

- **Work that keeps our region moving.** Our transportation team specializes in corridor design, highway framework studies and IJRs, signalized and roundabout intersection design, downtown transportation revitalization projects, traffic & roadway/highway design, transit design, and stormwater design.
- **Growing the business.** We're looking for someone who can develop and cultivate relationships with current and potential clients to find and secure new projects.
- **Growing as a professional.** You'll get to expand your experience by doing a variety of work including managing design and plan production, overseeing and mentoring technical staff, participate in project proposal development, project interviews and presentations.
- **Learning from some of the best!** We're proud to have some of the top transportation professionals in the country right here at SCJ. From national program designers to statewide award winners to international roundabout experts, you'll learn from the best in the business.

What you bring

- A passion for serving others, communication, creativity, and a commitment to high-quality work.
- A PE license and a bachelor's degree in civil engineering or equivalent.
- 1 to 5 years of progressively responsible transportation engineering experience.
- AutoCAD and/or MicroStation 3D experience. Civil 3D and/or InRoads experience would be great.

What we bring

- [An unbeatable culture!](#) Firm-wide campouts, [mugshots](#), gold-medal [costume competitions](#)...you'll love coming to work.
- [Quality projects.](#) We pursue work that improves communities, challenges us, and makes a difference.
- [Community involvement opportunities](#) and a charitable matching program.
- Retirement benefits: 401(k) & employee stock ownership plans.
- Paid time off.
- Health and other insurance plans tailored to your needs.
